Identifying and understanding your values, strengths, and goals are needed in order to consistently make effective decisions. This workshop asks participants to reflect on these things in order to create a personal code of ethics statement. Participants will also gain valuable communication and conflict resolution skills, as well as tools for strategic decision-making. Students will receive student training guides that they can take with them to help them make difficult decisions in the future.

Please Note: In order to receive credit for attending this program, you will be expected to have your camera on and to actively participate in discussions by unmuting yourself.
